

Application for Regional Research Partners & Consultants

19 July 2010

Westat India Social Sciences is a wholly owned subsidiary of Westat, the largest statistical research corporation in the U.S. and an international leader in survey research, evaluation and statistical design.

Westat has five decades of experience, a global portfolio with projects in more than 50 countries, and revenue from operations in 2009 of approximately \$500 million.

Westat India is headquartered in New Delhi and provides a range of research and evaluation services for the central and state government, world bodies, foundations, corporations and multinational organizations.

Westat India is seeking partners and consultants for future research, evaluation, and large scale surveys to be conducted in India. We are interested in companies and individual consultants with experience in at least one of the following core capabilities:

- **Survey/questionnaire design**
- **Sample design**
- **Survey data collection**
- **Qualitative data collection**
- **Data entry and processing**
- **Analysis**

Companies and consultants interested in being considered for partnership with Westat India can download submission requirements from www.westat.in.

Applications are due 9 August 2010.
